| 63. | a. why | b. how | c. that | d. where |
| 64. | a. cheaply | b. easily | c. expensively | d. hardly |
| 65. | a. boring | b. regular | c. wonderful | d. amazing |

c. متن زیر را بخوانید و به سوال‌ها پاسخ دهید.

Although microbes are very small, they are dangerous because they cause many kinds of illnesses. When fresh air, good and clean water enter our body, we are safe from microbes. Perhaps some microbes enter our body, but if we are healthy, they won't live long.

Inside our stomach, there is a liquid, which kills microbes that enter it. Our body is covered with skin, which protects the flesh and bones from the microbes in the air. Microbes live in dirt, so we should keep our body clean. Mothers should never let flies sit on their children's eyes. Many children have become blind (cannot see) because flies carried microbes to their eyes. When we go to bed, we must have enough fresh air, and this will keep us healthy.

66. **Why are microbes dangerous for our health?**
67. **How can we live longer?**
68. **What is the function (work) of skin?**
69. **Microbes cannot be seen because**
- | | |
|------------------------|------------------------------|
| a. they are visible | b. they cause many illnesses |
| c. they are very small | d. they are dangerous |
70. **The liquid in the stomach** **microbes.**
- | | | | |
|--------------|---------------|-------------|-------------|
| a. increases | b. multiplies | c. destroys | d. enhances |
|--------------|---------------|-------------|-------------|
71. **The passage says that** **is required to keep our bodies protected from germs.**
- | | | | |
|----------------|--------------|--------------|--------------|
| a. living long | b. fresh air | c. chemicals | d. dirty air |
|----------------|--------------|--------------|--------------|
